ALABAMA EVENT TABLE GUIDELINES
For IAIABC Claims Release 3

This Event Table is designed to provide information integral for a sender to understand EDI reporting requirements for Alabama Workers Compensation Division. It relates EDI information to the circumstances under which they are initiated as well as the timeframes for sending the information. These circumstances and timeframes reflect the legislative mandates and specifications of Alabama Workers Compensation Division relative to reporting requirements based on various criteria. This Event Table is used and controlled by AWCD to convey the level of EDI reporting currently accepted.

Event Table Categories

1. Maintenance Type
2. Event Rule
3. Report Trigger
4. When is the Report Due?
5. Paper Form(s)
6. Receiver

1. Maintenance Type Codes (MTCs)
Identifies the MTCs Alabama Workers Compensation Division (AWCD) will accept for processing the First Report of Injury (FROI) electronically.

2. Event Rules
AWCD require all FROIs except medical, including those with old dates of injuries, to be sent by Electronic Data Interchange (EDI) after Trading Partner agrees to start EDI submission. Rule dates are used (when applicable) to express differences in reporting requirement based on dates of injury, EDI implementation dates, or other jurisdiction workers compensation reporting laws and rules.

3. Report Trigger Criteria and Values
Report Trigger contains Criteria and Values that describes the events which causes a FROI to be due for submission to AWCD on a claim that occurred based upon the Event Rule.

Criteria code:	Trigger Value:
A = New Claim	All non-medical claims that are not under investigation or being denied which have 3 or more days of Lost Time. Also Employee death claims.
B = Cumulative Medical $	Cumulative amount that makes the report due
C = Lost Time	**Length of time in Trigger Value description**
D = Cumulative Wage Replacement	Cumulative amount that makes the report due
E = Days Open	Length of time in Trigger Value description
F = Formula	Describes the formula (if applicable)
J = Jurisdiction Defined (AWCD)	**Describes AWCD specific condition**
L = Determination of Compensable Death	
M = MTC Defined	**Describes the Maintenance Type Code condition**
N = Cumulative Indemnity $	Cumulative amount that makes the report due
Q = Employee Death

4. When is the Report Due?
Expressing the regulations that meet the jurisdiction's filing deadlines may be described with the *Value, Type* and *From,* as needed. For each MTC and Event Rule Effective Dates, insert the number of days in the *Value* column, "B" for business days or "C" for calendar days for the applicable *From* code

Value	Type	From
Represents the last date/days AWCD will consider this MTC to be timely filed, and not the date on which it is recommended the transaction be initially triggered.	Indicates whether the Value is measured in business or calendar days.	Represent the beginning point for the Value. Report Due From Code A = From Date of Accident/Injury B = From Date of Disability **C = From Employer Notification** **D = From Claim Administrator Notification** **E = From Jurisdiction Notification** F = From Carrier Notification G = From Initial Payment (IP) H = Immediate I = From Date of Death J = From Report Trigger Value K = Prior to Final Report (FN)

5. Paper Form(s) and the Receiver
The final columns on the FROI event table is used to convey to the sender any paper reports that are required to be filed at the same time as the EDI transmission is sent. When a form is entered, indicate the *Receiver* to whom the form is to be sent. If paper forms are not required, insert "NA" in the cells.

Receiver Codes
EE = Employee
ER = Employer
PR = Provider
Others as defined by jurisdiction
